Pat, below is the message that I sent to Sarah yesterday. I am drafting the transmittal letter for the bioremediation work plan and also have a question about that, which is why I left you a voice mail message an hour ago, which you can delete without reviewing.. Please give me a call; I'll be out of the office 1:30 to 3 pm your time today. Thanks, Carol

Subject: Good afternoon

Sarah,

I just tried calling your office but didn't leave a voice mail message. When convenient, please give me a call at 713-758-2528. I'm calling for two reasons:

The bioremediation pilot study: Dr. Pardue is finalizing the work plan and QAPP, and he suggests that we convene a workshop to be attended by EPA, DEP and representatives of the universities who will implement the work. He believes a workshop will help a smooth understanding and provide the opportunity for clarity about the needs of the researchers as they conduct a field pilot program. Given EPA will convene a technical meeting on July 22, we suggest July 23 or 24, as that will help us with travel logistics.

I had some questions about the July 22 technical workshop to ensure that we understand what is expected of presenters so ours are prepared.

I look forward to speaking with you. I will be on vacation and out of the country July 10-21, traveling directly to Newark for the meeting on July 22, so I am trying to have things well in order before my departure.

Regards,

Carol
